

Online Cinema Movie Ticket

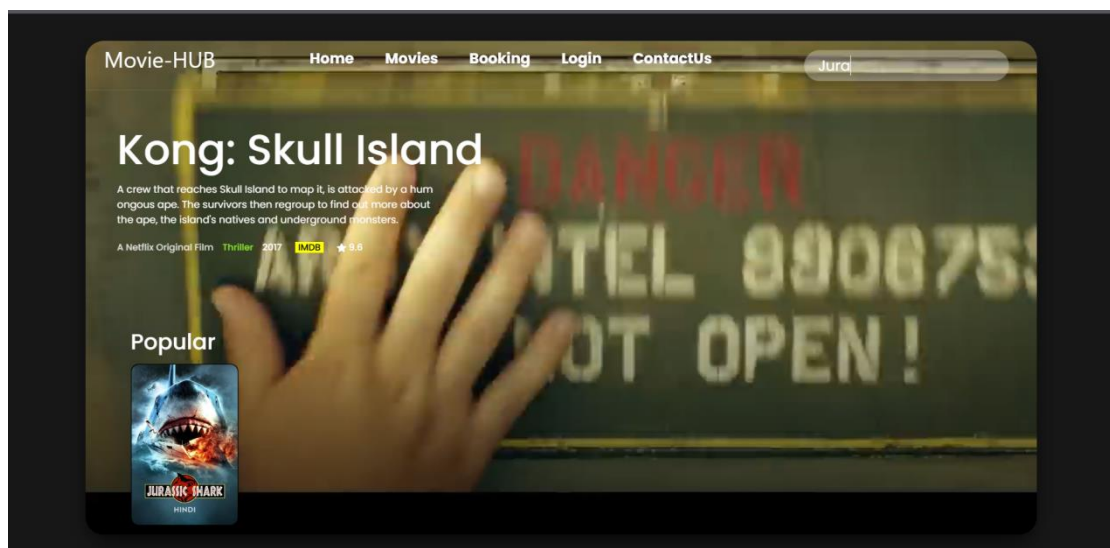

Project By: Afifa Masood (BSEF21M004)

Home Page:

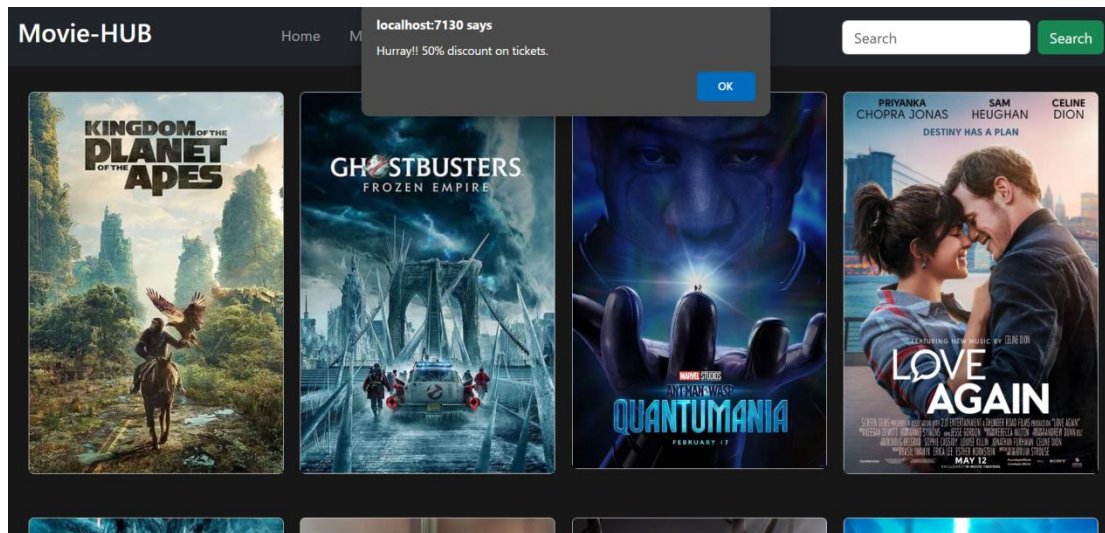

The main page of Movie Hub showcases a variety of movies in a horizontal scroll. Users can select any movie and book tickets from the comfort of their home, choosing the timing that suits them best. They can easily search for any movie, and alongside the movie, details such as ratings and categories are displayed.

Real Time Notification On Tickets Sale:

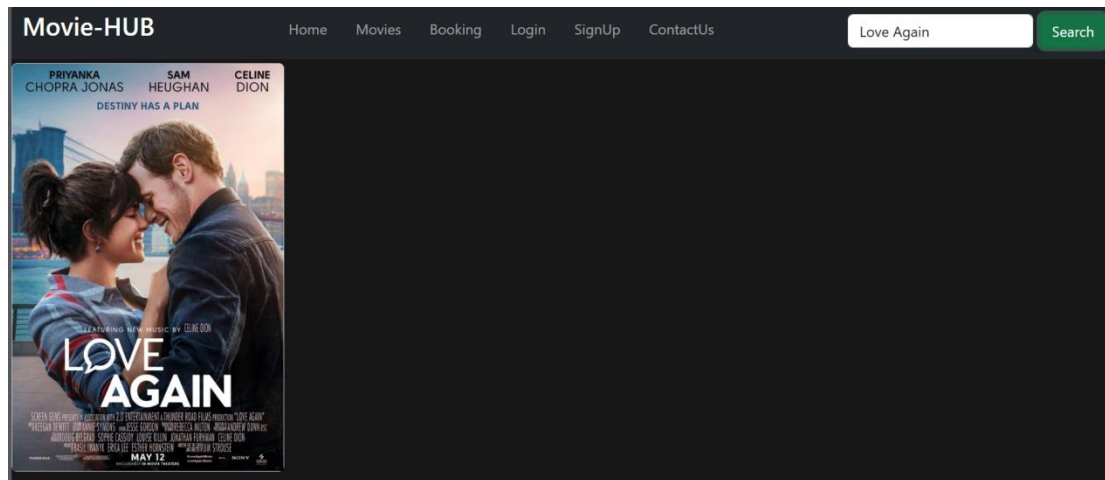

Movie Page:

The Movies page provides real-time notifications for ticket availability. If a movie is blocked, users won't be able to reserve tickets for it. This page also displays a variety of movies, and users can select their preferred movie to reserve tickets. Additionally, it features a movie search functionality, allowing users to search for any movie and view it in a partial view after searching.

Search For Movie:

Notification If Movie is not available:

Login Page:

User must be login to book tickets.

Forgot Password:

The screenshot shows the 'Forgot Password' page of the Movie-HUB application. The page has a dark background with a central white form. The form contains three input fields: 'Username', 'New Password', and 'Confirm Password'. Below these fields is a white button labeled 'Reset Password'. The top navigation bar includes links for Home, Movies, Booking, Login, SignUp, and ContactUs, along with a search bar and a green 'Search' button.

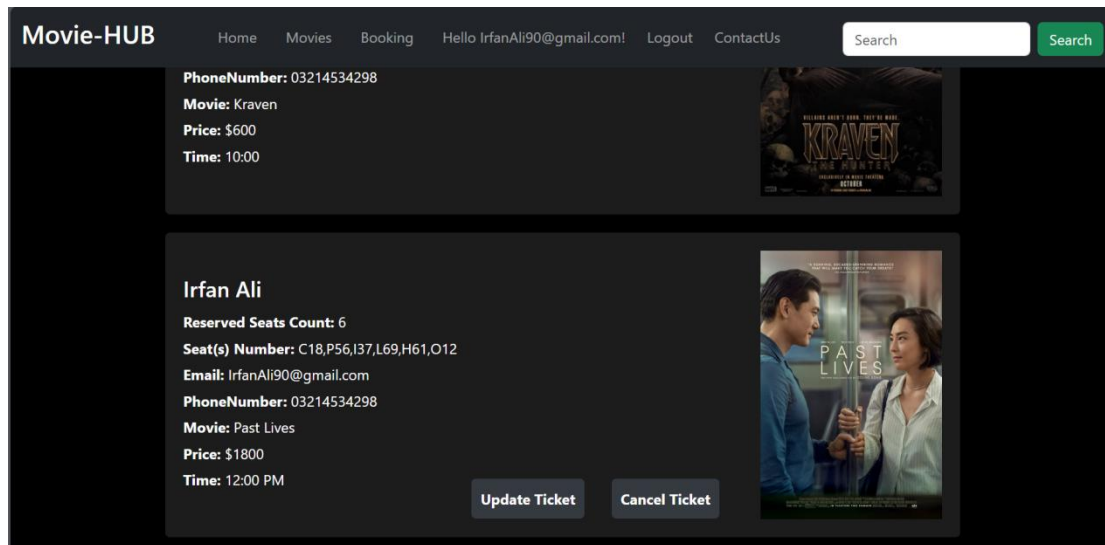

Ticket Reservation Page/Book Ticket:

On the Ticket Reservation page, users can book their movie tickets by entering details such as name, movie name, number of seats, email, phone number, and selecting the movie time. After filling in the information, pressing the 'Confirm' button will complete the ticket booking process.

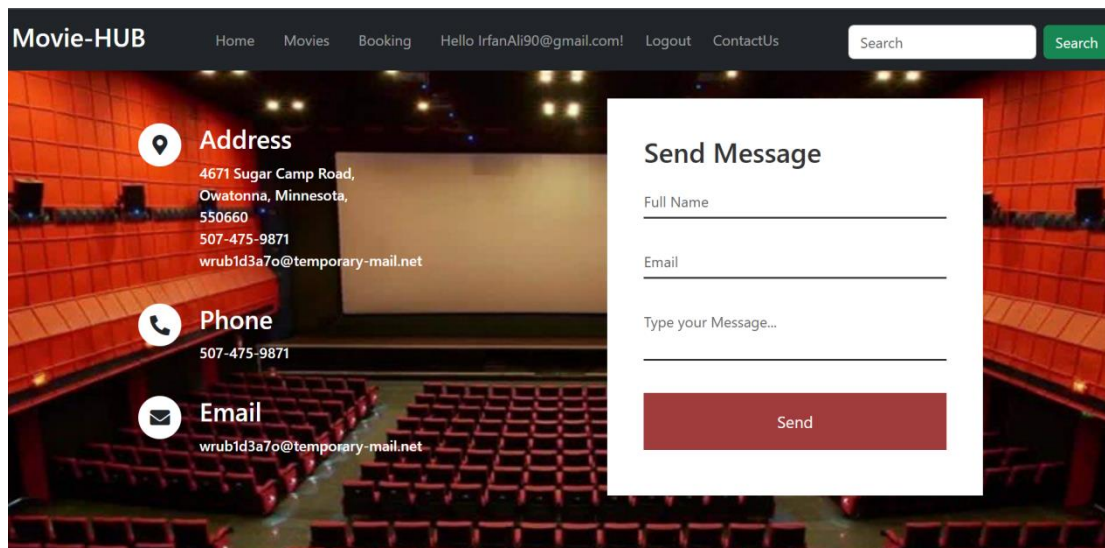

The screenshot shows the 'Ticket Reservation' page of the Movie-HUB application. The page has a dark background with a central white form. The form contains six input fields: 'Name', 'Movie Name', 'Number of Seats', 'Enter email', and 'Enter Phone Number'. Each field has a placeholder text indicating what to enter. The top navigation bar includes links for Home, Movies, Booking, a user profile 'Hello IrfanAli90@gmail.com!', Logout, and ContactUs, along with a search bar and a green 'Search' button.

Booking Page:

The Booking page displays both the current and previously booked tickets of the logged-in user. Users can cancel currently booked tickets, and if needed, they can also update any details. This page also shows the user's entered information along with the total ticket price based on the number of seats reserved.
